

It's like having your own  
dedicated training manager.  
Except they work 24/7, 365.

### Solution

Foodservice Training Portal's "Foodservice Success University" offering includes ten courses and provides content in the areas of sales & service and safety, compliance & security- with training to cover every aspect of your business' needs.

We know the challenges of on-boarding a rotating and predominantly millennial staff. Foodservice Success University makes it cost effective to deliver the learning experience your front of house and back of house employees need to receive- in an on-demand, flexible, online format they're comfortable with and can easily use. Our accompanying robust Learning Management System allows managers/supervisors to evaluate and track employee results efficiently from one online destination.

### Benefits

With implementation of these learning assets, your operation will:

- Increase sales in targeted categories
- Improve the overall level of customer service provided by your staff
- Utilize efficient e-Learning training tools to streamline the on-boarding and ongoing training process
- Reduce the overall exposure to liability (*in the event of a food safety, workplace violence/active shooter or allergic reaction incident*)

### Investment

Foodservice Success University is available for \$79/month per location for one year for up to 100 students. (Access billed annually.)
